Publishing Educational Research: Guidelines and Tips

Compiled by: Kay Uchiyama and Genet Kozik-Rosabal, University of Colorado, Boulder

AERA has created a publication to assist researchers, faculty, and students with the process of publishing. It should be of interest to members who have little or no publishing experience. The objectives of the document are to: explain the basic processes of publishing articles for referred journals; provide "start-up" information for graduate students with their first publishing attempts; provide support for faculty who have little experience in this area; demystify working relationships between students and faculty, and faculty and peers; encourage collaboration between writers, editors, and reviewers; and promote a high standard of "writing ethics" that honors all educational endeavors.

The publication is free on the AERA website: www.aera.net. A hard-copy can be purchased by sending $6:00* (payable to AERA), to: AERA Publications, 1230 17th Street, Washington, DC 20036.
